

2v2 Wall Rim Game

Description

This is a continuous 2v2 small area game. To start the game, two O's are placed in the crease ready to defend. Coach will rim the puck around to the other half wall. You can choose when you allow defenders to engage and try to win the puck.

A 2v2 starts and O's need to win the puck and pass to either coach. When the coach catches it, he will rim the puck immediately to the other side. Meanwhile, the X's who were just on offense need to tag the crease or post and then engage defensively while the new O's are picking up the rim ready to attack.

This is a OFFENSE > DEFENSE > OUT continuous game.
