

"2-2-2" Small Area Game

Description

Each team will line up just above the tops of the circles, on their respective side. The game begins by the coach dumping two pucks into the zone, anywhere they would like. The first puck (the green dotted line shown above) will be battled for by the first player in each team's line. The second puck (the blue dotted line shown above) will be battled for by the second player in each team's line.

Both 1v1's can score and either net. Once somebody scores one of the pucks, the drill immediately becomes a 2v2. The 2v2 battle can also score on either net.

Players should use clear communication when that first puck is scored, and let their teammates know it has now become a 2v2. Goal is score both pucks for your team!
