

Faceoff Game 3v3

Description

This is great competitive game to work on faceoffs and scoring!

Each group starts with a 3v3 faceoff with a coach dropping the puck as shown above. This is shown playing cross ice, but you can also play this game in the neutral zone with the nets just inside the blue lines.

The X's score on the top net as shown, and the O's score on the bottom net. The incentive to win the faceoff is you get an immediate 3v0 to the net, with the other team having to backcheck.

If the puck goes OUT of the zone on the top portion of the zone as shown, the top coach will pass to the O's to attack towards the opponents net, if the puck goes out in the bottom portion of the zone, the bottom coach will pass to the X's to attack. Play each rep for 30-40 seconds, or until a goal is scored.

Always remember, KEEP SCORE! :)
