

Asteroids Battle Game - Coach Barry Jones

Use one end zone split in half with two nets, one goalie per net. Place a center line east-west just above the circles. Coach spots the puck into either zone. In each zone place 2 attackers and 1 defender in front of the net, with 1 defender positioned high in the soft ice. Net-front defenders must win the puck and pass high so the defender can move it across to the opposite zone to activate their attackers. If possession changes, the new defender repeats the same action. Emphasize puck movement, spacing, scanning, net-front battles, and fast transitions.
