

3 Player Outlet Game - Coach Barry

3 Player Outlet Game builds puck recovery, activation timing, and support habits. Set one net with goalie in end zone. Coach spots puck into corner for 1v1 battle. Winner must pass to Player 2. Only Player 1 can activate Player 3, creating intentional puck movement and scanning. Once three players activate, team can score. After 10 seconds opponent activates, creating transition, pressure, and decision making. Reinforces puck support, timing, and recovery under pressure. Goalies track activation, depth, and readiness for immediate scoring threats.
